

Are you interested in **preventing your eyes from developing Cataracts and Macular Degeneration** and in addition **improving your night vision and light sensitivity** with the QuantifEye Technology? **The fee for this QuantifEye Technology is only \$15.**

### EyeScreen Photographic Examination

We at Landsaw Eyecare are pleased to provide our patients with an advanced digital retinal exam called EyeScreen. EyeScreen is a high resolution screening photograph of your retina which will help us document, review, and compare your retina over time. We will use the EyeScreen exam to document a baseline image for our charts, screen for eye diseases and improve our ability to view your internal retinal health at a much higher resolution than a slit lamp or ophthalmoscope. Unfortunately insurance plans do not cover preventative screenings. **The fee for this extended exam is only \$39.**

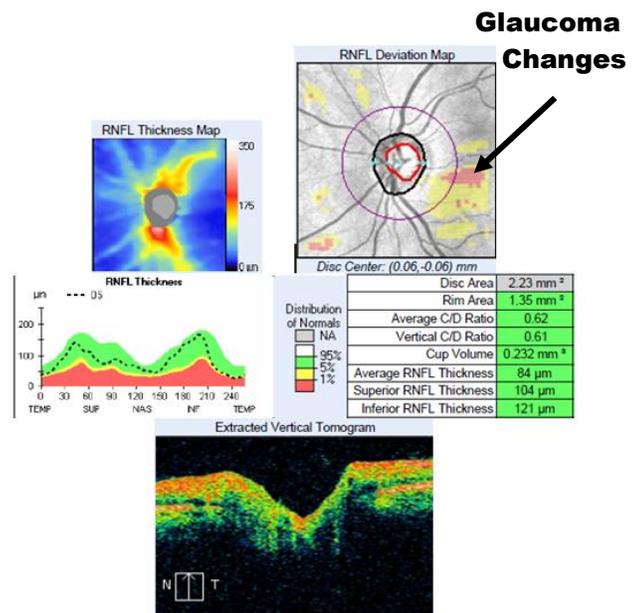

### The Cirrus OCT Screening Exam

Drs. Harry & Jannah Landsaw and their staff at Landsaw Eyecare are proud to provide our patients with the latest in glaucoma detection, the Cirrus OCT. The Cirrus OCT, when used as part of a comprehensive eye exam, detects glaucoma six years ahead of other technologies by evaluating the actual site where the damage occurs. The Cirrus OCT is a significant breakthrough over other existing tests. The standard pressure check (tonometry) is ineffective for detecting glaucoma in one-half of patients diagnosed with the disease. Visual field testing (perimetry) is limited to measuring vision **already lost** to glaucoma. We are the only office in the Upper Keys where this technology is available. It is our commitment to you to provide the best in eye care.

*Your insurance plan provides you with basic vision examination coverage, but does not include advanced disease detection procedures like the Cirrus OCT screening exam.*

**The fee for this extended exam is only \$39.**

**Drs Harry and Jannah Landsaw strongly recommend all three tests be done on an annual basis as part of your comprehensive exam. As part of our commitment to providing you with the best care possible, we would like to offer you all three advanced technologies for the package price of \$83.**

#### Check only one box

- I agree** to the preventative and improvement QuantifEye Technology for only \$15
- I agree** to have my retinal health evaluated with the EyeScreen Exam for only \$39
- I agree** to utilize the Cirrus OCT Screening Exam for only \$39
- I agree** to all three new advanced technologies and **SAVE \$10** for \$83
- I decline** all three technologies against medical advice
