

About Your Vision Care Plan & Your Medical Insurance

There are two types of health insurance that will help pay for your eye health services and products.

You may have both types and **LANDSAW EYECARE**, your *VISION SOURCE* accepts most vision care plans and insurance plans in both categories: 1} Vision Plans (such as VSP, EyeMed and others) and 2} Medical Insurance (such as Blue Cross/Blue Shield, Medicare, and others)

- Vision Plans cover ONLY routine vision wellness exams, and may include eyeglasses and sunglasses and contact lenses. Vision plans do NOT provide for MEDICAL EYE HEALTH CARE NEED.
- Medical Insurance MUST be submitted for any medical eye health care diagnoses and treatment care and follow-up.
- If you have both Vision Care benefits and Medical Insurance plans it may be necessary for us to submit and bill some service to one plan provider and some services to the other plan provider. We will follow a procedure called "Coordination Of Benefits" to do this properly and to maximize your best advantage and least cost to you.
- Where some fees for services and products are not paid by your vision plan or medical insurance providers, you will be responsible for them, including deductible, co-payments, and non-provider services as specified by the insurance contract.

Please provide both your Vision Plan authorization card and your medical insurance cards and identification, for your benefit, to our team member so we can make copy. We will need your medical insurance or Medicare card on file in the case we should need it in the future for submitting claim on your behalf with your insurance.

I have read and accept this office procedure:
